## E-bike Build

Frame system	Steel frame, phosphate-dipped and gloss painted for enhanced durability and corrosion resistance
Suspension /wheel	Front spring suspension and bearing hubs for improved ride comfort. 27.5 x 2.4" nylon tires and tubes for reliable traction.
Brake system	Equipped with front and rear mechanically activated e-bike brakes with metal-impregnated pads for long-lasting, effective braking. Brakes feature a power cutoff for added safety
Drive system	Single-speed, standard chain drive system with a 48-tooth crank and alloy pedals.

## E-Traction system

Motor	E-Traction system featuring the DMT250HD 250W hub drive motor delivering 36Nm of torque.
HMI	Color LCD display shows battery level, speed, odometer, trip meter, and error messages
Additional Features	Call-on throttle for safety and cruise mode for a relaxed, extended ride. • Front and rear LED lights for enhanced visibility and safety.
Energy System	9.5Ah Li-ion battery for dependable power.

## PERFORMANCE

**Torque :** 36Nm @ 100 RPM and Peak power of 300 W

**Speed :** 25 Km/H

**Range :**

- On throttle 35Km
- On pedal assist 50 Km

Excessive weight (over 80 kg), hilly terrain, headwinds, and low tire pressure can all reduce the vehicle's range.

## WARRANTY

Frame	: 5 years
Motor	: 2 years
Battery	: 2 years
Controller	: 1 year
HMI	: 6 Months
Mechanical parts	: 6 Months
Warranty exclusions:	Wearable parts , corrosion
